# International Open-Day
October 16-18, 2018

Welcome to our «Instituts Universitaires de Technologie» (IUT) in Auvergne Rhône-Alpes Region!

The French Institutes of Technology are fully part of the university system. They select their students after their high-school diploma and have strong links with local business. There is a limited number of places available, making it a sought-after programme.

○ Lyon

○ Chambéry

○ Saint-Etienne

○ Grenoble

This international forum is jointly organised by the Lyon, Saint-Etienne, Chambéry, and Grenoble IUTs in order to:
- Develop and strengthen the network of partners
- Increase international opportunities for students
- Promote the IUT system and joint actions between the IUTs
- Promote Rhône-Alpes, a prosperous and dynamic European region

The 115 IUTs are **part of a national network of IUTs and all follow a common National Curriculum leading to a DUT, equivalent to a Higher National Diploma in Technology, after two years of studies (see chart below).**

Since their creation, over 1 million students have been awarded a diploma and over 3,000 others a vocational Bachelor's degree by our institutions.

After their diploma, students can:
- Continue their studies in France or abroad at Bachelor's level and then at Master's level
- Start working

For their 3rd year abroad, they are awarded a DUETI, University Diploma in Technology in an International context.

PhD (3 years, 180 ECTS)

MASTER'S DEGREE (2 years, 120 ECTS)

Master 2nd year

Master 1st year

BACHELOR'S DEGREE (3 years, 180 ECTS)

Bachelor 3rd year	Professional bachelor's degree
Bachelor 2nd year	DUT*	DU*
Bachelor 1st year		DU*

BACCALAUREAT (High-school diploma)

* DUT: UNIVERSITY DIPLOMA IN TECHNOLOGY
* DU: UNIVERSITY DIPLOMA

That's why our 2nd year students are looking for opportunities abroad to study for a bachelor degree. Come to this open-day to meet them, promote your university and reinforce our relationships.
So please, feel welcome to our International Open Day events in Auvergne Rhône-Alpes!

Departments

The different IUT departments (organised into thematic clusters)

GACO Administrative and Commercial Management for Organisations
GEA Business and Administration Management
TC Marketing
C3si Marketing of Industrial Systems, Solutions, and Services
PEC Packaging and Design
GLT Managing logistics and Transport

GB Bioengineering
GBGE Environment & Applied Biology Sciences
HSE Health, Safety and the Environment

CH Chemistry
GCGP Chemical and Process Engineering

GCCD Civil Engineering and Sustainable Construction
GTE Thermal and Energy Engineering

IT
MMI Multimedia and Internet Professions
GEII Electrical Engineering and Industrial IT
RT Networks and Telecommunications
INFO Computer Science
STID Statistics and Business Intelligence

GMP Mechanical and Production Engineering
GIM Industrial Engineering and Maintenance
SGM Materials Engineering and Science

QLIO Quality and Supply Chain Management

MP Applied Physics

Schedule and programme **2018**

16
October

LYON 1
• Lyon 1 IUT departments: GEA / TC / GCCD / CH / GTE / GCGP/ GB / C3si/ GIM / GMP / IT / GEII
• 2nd year: 200 students all interested in an international mobility and selected beforehand
• Stands in the hall

17
October

SAINT-ETIENNE
• Saint-Etienne IUT Departments: GEA / TC / GACO / GBGE / MP / GEII / GMP
• 2nd year: 130 students all interested in an international mobility and selected beforehand
• Stands in the hall + talks only by Saint-Etienne IUT

18
October

GRENOBLE 1
• Grenoble 1 IUT departments: GCCD / GEII / GMP / GTE / MP / MMI / RT/ CH
• All 1st and 2nd-year DUT and Professional Bachelor's students who may be interested
• Stands and talks

Design your own time table according to the fields you're specialised in!

Lyon 1

Presentation of the Lyon 1 IUT

- The IUT de la Doua was founded in 1967 and merged with IUT B in 2009

- Number of students at the IUT: 5,000

- Part of: Université Claude Bernard Lyon 1

- Number of students at the University: 35,000

- Number of foreign partnerships: 80 Erasmus agreements + 35 framework agreements

- English-language programmes: 1 GEA MMIC (Marketing and Management in an International Context) + 1 semester 4 in IT + 1 vocational bachelor about chemistry + 1 semester in Marketing and business

- Number of international students: Around 160 (for internships, the semester, or the year)

Thanks to close links with companies (around 800 partners) and the region's professional milieu, the IUT has developed 15 DUT degrees and 42 Professional Bachelor's degrees across three sites: Bourg-en-Bresse, Villeurbanne DOUA, and Villeurbanne Gratte-Ciel.

Presentation of the city of Lyon

Demographics

- 1.3 million inhabitants in the Greater Lyon area

Higher Education

- 144,000 students, 12% of which are foreign
- 4 universities and 54 higher education institutions

Economic fabric

- Lyon, second largest employment area in France
- 39,543 companies and institutions
- 5 competitiveness clusters (including two internationally-oriented clusters: Lyonbiôpole, Axelera, Lyon Urban Truck & Bus, Imaginove, Techtera...
- The chemistry and environment, digital, and biotech sectors are particularly well represented.

Quality of life

- Lyon is 1.5 hours away from the closest ski resorts and 3 hours from the Côte d'Azur. The city's attractiveness is even further enhanced by its renowned quality of life and very active community life, with over 9,200 community groups and non-profit organisations.

Saint-Etienne

Presentation of the Saint-Etienne IUT

- Founded in 1967

- Number of students at the IUT: 2,100

- Part of: Université Jean Monnet Saint-Etienne

- Number of students at the University: 20,000

- Number of foreign partners: 65

- English-language programme: 1 or 2 semesters in the GACO department (Administrative and Commercial Management for Organisations) and in Environment & Applied Biology Sciences

- Number of international students: 60

- Degree: 7 DUT and 18 Professional Bachelor's Degrees

©Service communication IUT de Saint-Etienne

Presentation of the City of Saint-Etienne

Demographics

- 400,000 inhabitants in the Saint-Etienne conurbation

Higher Education

- 25,000 students

- 2,800 international students and researchers

- In addition to Université Jean Monnet, there is a wide variety of schools with recognized programmes

©Agence LIN Finn Geipel et Giulia Andi-Jan-olivier Kunze photographe

Economic fabric

- Saint-Etienne was the first French city to join the UNESCO Creative Cities Networkstrong growth. The long under-represented tertiary sector has also grown recently thanks to the creation and installation of call centres and IT companies (NumeriParc).
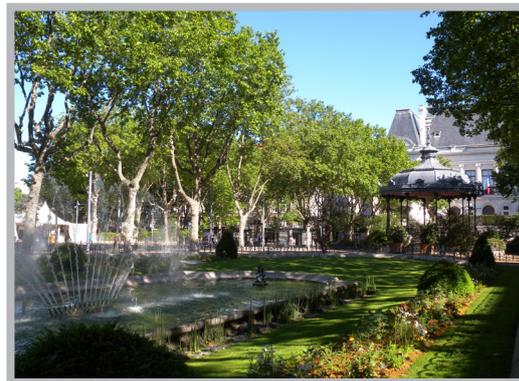

- 20,000 companies in the area

- The European leader in surface and optics manufacturing (Pôle Optique Rhône-Alpes)

- A major French player in the field of Health Engineering and Medical Devices

©Christophe ROY

Quality of life

- Water and nature sports to suit everyone's taste: 2,500 km of marked trails, a marina in the Gorges de la Loire, cross-country skiing trails, snow-shoeing, golf, canyoning, fishing... all just minutes from the city.

Chambéry

Presentation of the Chambéry IUT

- Founded in 2000
- Number of students at the IUT: 850
- Part of the University of Savoie
- Number of students at the University of Savoie: 14,000
- Number of foreign partnerships: 22 Erasmus agreements, 20 bilateral agreements, informal agreements
- English-language programme: A business semester in the GACO department (Administrative and Commercial Management for Organisations - 30 ECTS)
- Number of international students: 20
- 10% of IUT students go international
- Degree: 5 DUT (including an E-learning diploma) and 10 Professional Bachelor's Degrees

©YannickPerrin

Presentation of the city of Chambéry

Demographics

- 125,000 inhabitants in the Chambéry conurbation

Higher Education

- University of Savoie is the first University in France in terms of the percentage of outgoing students.
- 20,000 students in the city (12.5% international students)
- University of Savoie also houses the Institute of Business Administration (IAE) and the Polytech Annecy-Chambéry Engineering School

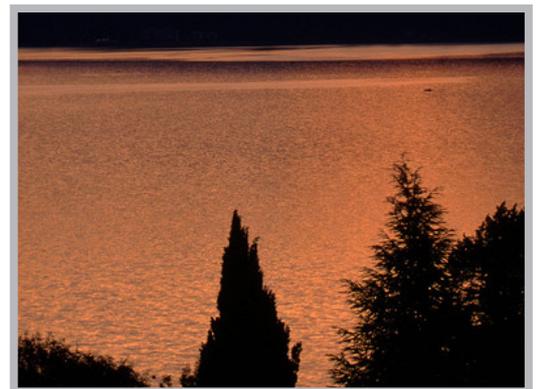

© Région Rhône-Alpes / Jean-Luc Rigaux

Economic fabric

The Chambéry metropolitan area's vibrancy stems from:

- The diversity of its industrial activities and services developed for traditional sectors: agro-food industries; mechanical and related industries; construction materials; health and thermal treatments; tourism and transport
- An innovative spirit that fosters the emergence of new industries: renewable energy, industrial ecology and water recovery, and cutting-edge industries (optics, imaging, etc.)
- R&D activities (many laboratories)

©Chambéry Tourisme & Congrès - J. Bouchayer

Quality of life

- Crossroads of the Alps, the Chambéry conurbation has an exceptional environment and heritage: the Bauges and Chartreuse natural parks, Lake Bourget, Chambéry's historical town centre, world's biggest ski resorts, wide range of cultural and sporting activities.

Grenoble

Presentation of the Grenoble 1 IUT

- Founded in 1966
- Number of students at the IUT 1: 2,200
- Part of Université Grenoble Alpes.
- Number of students at Université Grenoble Alpes: 45,000 13% international
- Number of foreign partners: 60
- English-language programme: Professional Bachelor's degree in CNMS (Computer Networks, Mobility, Security)
- Number of international students: 50

©DR

Presentation of the city of Grenoble

Demographics

- 440,000 inhabitants in the Grenoble conurbation

Higher Education

- 61,000 students, 9,000 of which are foreign
- Université Grenoble Alpes
- Engineering programme: Groupe Grenoble INP
- Political Science Institute: Sciences Po Grenoble

©JM Francillon-Ville de Grenoble

Economic fabric

- As the most important research area outside of Ile-de-France, the capital of the Dauphiné region has a successful, highly-innovative business ecosystem that works in cooperation with the industry, research, and education triad and is supported by regional authorities.

- Grenoble boasts cutting-edge infrastructure such as MINATEC (micro-nanotechnology); Clinatec and Biopolis (biotech-medtech); and PREDIS (smartgid and fuel cells).
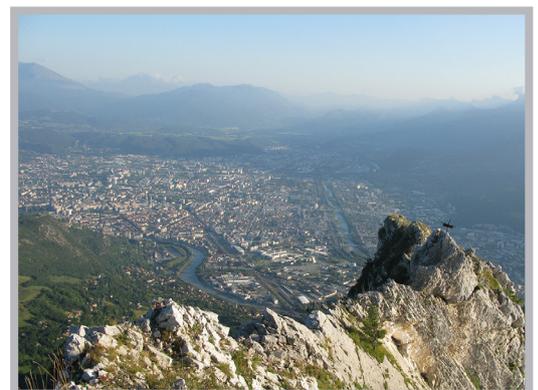

- Grenoble also has five major international research facilities: the ESRF (European Synchrotron Radiation Facility), the ILL (Institut Laue-Langevin), the EMBL (European Molecular Biology Laboratory), GHMLF (High Magnetic Field Laboratory), and the IRAM (The Millimetre Radio-Astronomy Institute).

©JM Francillon-Ville de Grenoble

A list of events happening in the city when you're here:

http://www.grenoble.fr/

Quality of life

- «At the end of each street lies a mountain...» As wrote Stendhal, Grenoble is surrounded by mountains, which offers a wide range of leisure activities in summer and winter.
